GOOD FOR YOU

Humans consume popcorn as a versatile and nutritious snack.

It's enjoyed both sweet and savoury by fans around the world. One factor, which makes it so popular, is its nutritional values.

One cup of air-popped popcorn contains 31 calories, 1 gram of protein, 6 grams of carbohydrate, 1 gram of fiber and just a trace of fat. And, it's a favourite snack of consumers of all ages.

“Americans consume more than 13 billion quarts of popped popcorn each year, which equals approximately 42 quarts per man, woman and child.”
